

METAL FINISHING

JOURNAL

INDEX TO 1971

VOLUME 17

A	Page	D		G	
Accelerated-corrosion test set, New	293	Decorative coating by electro-		Galvanizing baths, Top-heated ceramic	108
Acid copper plating of tubular steel		deposition of alumina	113	Growth of zinc-iron alloy layers	238
components	193	Degreasing process, Special	114		
Adhesion of nylon to mild steel	76	Designing metal articles for		H	
Aluminium cladding, Raised grain		finishing, Suppliers' viewpoint	112	High-speed flame spraying	189
effect in	242	DeVilbiss, Bournemouth, Metal			
Anodes in electrodeposition	276	finishing in	162		
Anodic coating for titanium	313	Dexion's versatile paint plant	244		
Anodizing in Lye	285			I	
Architectural components, New		E	Page	Industrial gold plating	249
Technique for polishing	321	East Europe contract, P.M.D.'s	192	Influence of addition agents on ternary	
Automatic programmed plant,		Effecting economies in iron plating	49	alloy deposition	254
Jobbing plater installs fully	55	Effluent treatment at B.S.R.	248	International standards for electro-	
		Effluent, Treating industrial	172	plating	290
B		Effluent problems as they affect the		Imasa/Silvercrown, New plant for	195
BISRA (Sheffield): Surface		zinc die-casting and plating-on-		Impact finishing	12
treatments for steel	111	plastics industries	51	Industrial effluent, Treating	172
B.N.F.'s new plating baths	163	Electrodeposition, Anodes in	276	Interferometry, Calibrating thickness	
Borohydrides in the plating of plastics	18	Electrodeposition of alumina,		gauges by	84
Bournemouth (DeVilbiss Co.),		Decorative coating by	113	Iron plating, Effecting economies in	49
Metal finishing in	162	Electrodeposition of ternary alloys			
		of cobalt-iron-tungsten from the	156, 184	J	
C		pyrophosphate bath		Jobbing plater installs fully automatic	
Calibrating thickness gauges by inter-		Electroforming as a production	305	programmed plant	55
ferometry	84	process, The use of		Johnson Matthey Metals Ltd.,	
Cam Gears, New paint lines at	196	Electron microscopy in the study of	208	Platinum-clad materials for	
Car bodies (Triumph), Finishing	164	plating problems, Some uses of		cathodic protection	171
Caterpillar Tractors, Conveying at	216	Electroplating, International	290		
Cathodic protection, Platinum-clad		standards for		L	
materials for	171	Electrostatic coating and electron	79	Letter to Platelayer	24
Ceramic galvanizing baths, Top-heated	108	beam curing of U.S. Ford plant	56	Lowbake system with combined	
Characteristics of various coating		Embossing sheet and strip	126	booth and oven	322
systems including two-pack		European metal-finishing congress,			
epoxy and polyurethane systems	316	Amsterdam 1971		M	
Chester Beatty Lecture (RSA):		F		Machinery, Costing the painting of 100,	132
Corrosion of metals	140	Finishing, Impact	12	Metal articles for finishing, Designing:	
Chirk, One year in (Sel-Rex (UK) Ltd.)	218	Finishing journals join forces, World's	221	Suppliers' viewpoint	112
Coating, Plastic	44	Finishing Luncheon Club, Christmas	10	Metal finishing, Opportunities in	243
Coatings for structural steel,		1970		Metal finishing in Bournemouth	
Symposium on	110	Finishing News Review, 26, 59, 88, 115, 143		(DeVilbiss)	162
Comparison of zinc-plating techniques	214	174, 197, 222, 262, 295 and	323	Metal finishing congress, European:	
Conference - Vacuum coatings,		Finishing plant, Josiah Parkes'	190	Amsterdam 1971	126
London, 1971	72	£0.5m	164	Metallizing metals and plastics,	
Congress, Amsterdam 1971:		Finishing Triumph car bodies	189	Vacuum	4, 40
European metal-finishing	126	Flame spraying, High-speed		Metals, Corrosion of; Chester	
Contract, P.M.D.'s East Europe	192	Ford (U.S.) plant, Electrostatic coating	79	Beatty Lecture (RSA)	140
Conversion-coating in one operation	260	and electron beam curing in	291	Metrication: Suppliers' Viewpoint	217
Conveying at Caterpillar Tractors	216	Fully integrated powder coating plant		Mild steel, Adhesion of nylon to	76
Copper, Replacing nickel with	58				
Corrosion of metals: Chester					
Beatty Lecture (RSA)	140				
Corrosion and protection	105, 294				
Costing the painting of	100				
machinery	and 132				

N

New accelerated-corrosion test set	293
New metal pre-treatment process	219
New paint lines at Cam Gears	196
New plant for Imasa/Silvercrown	195
New technique for polishing architectural components	321
Nickel, Replacing with copper	58
Nylon, Adhesion of to mild steel	76

O

One year in Chirk, Sel-Rex (UK) Ltd.	218
Opportunities in metal finishing	243

P

Paint lines at Cam Gears, New	196
Painting of machinery, Costing the	100, 132
Parques' (Josiah) £0.5m finishing plant	190
Plant, Processes and equipment	31, 65, 93
119, 146, 178, 200, 228, 268, 300	329
Plastic Coating	44
Plastics, Borohydrides in the plating of	18
Plastics, Vacuum metallizing metals and	4, 40
Plater (Jobbing) installs fully automatic programmed plant	55
Plating (Acid copper) of tubular steel components	193
Plating baths, B.N.F.'s new	163
Plating-on-plastics and zinc die-casting industries, Effluent problems as they affect the	51
Plating problems, Some uses of electron microscopy in the study of	208
Plating under programme control	136
Platinum-clad materials for cathodic Protection (Johnson Matthey Metals)	171
P.M.D.'s East Europe contract	192
Polyurethane systems, Characteristics of various coating systems including two-pack epoxy and	316
Powder Coating at Patterson Edwards	283
Powder coating plant, Fully integrated	291
Pre-treatment process, New metal	219
Printed circuits, Screen printing inks for	81
Producing bi-metallic strip	261
Programme control, Plating under	136
Programmed automatic barrel line for zinc plating	318
Protecting the Marine	286
Protection, Corrosion and	105, 294
Pyrophosphate bath, Electrodeposition of ternary alloys of cobalt-iron-tungsten from the	156, 184

R

Raised grain effect in aluminium cladding	242
Replacing nickel with copper	58

S

Screen printing inks for printed circuits	81
Sel-Rex (UK) Ltd., One year in Chirk	218
Sheet and strip, Embossing	56
Shore-lining in vitreous-enamelled mild-steel sheets	246
Some uses of electron microscopy in the study of plating problems	208
Special degreasing process	114
Steel, Surface treatments for (BISRA, Sheffield)	111
Structural steel, Coatings for: Symposium on	110
Suppliers' viewpoint: Designing metal articles for finishing	112
Suppliers' Viewpoint: Metrication	217
Surface treatments for steel (BISRA, Sheffield)	111
Symposium on coatings for structural steel	110

T

Taking points 3, 24, 39, 71, 99, 125, 183, 207, 237, 275,	155
Ternary alloy deposition, Influence of addition agents on	312
Ternary alloys of cobalt-iron-tungsten from the pyrophosphate bath, Electrodeposition of	156, 184
The use of electroforming as a production process	305
Thickness gauges, Calibrating by interferometry	84
Titanium, Wear-resistant anodic coating for	313
Top-heated ceramic galvanizing baths	108
Treating industrial effluent	172
Triumph car bodies, Finishing	164
Tubular Steel components, Acid copper plating of	193
Two-pack epoxy and polyurethane systems, Characteristics of various coating systems including	316

V

Vacuum coatings, First international conference, London, 1971	72
Vacuum metallizing metals and plastics	4, 40
Vitreous-enamelled mild-steel sheets, Shore-lining in	246

W

Wear resistant anodic coating for titanium	313
World's finishing journals join forces	221

Z

Zinc die-casting and plating-on-plastics industries, Effluent problems as they affect the	51
Zinc-iron alloy layers, Growth of	238
Zinc plating, Programmed automatic barrel line for	318
Zinc-plating techniques, Comparison of	214

INDEX TO AUTHORS: JULY TO DECEMBER 1971

A

Allen, R.	217
Artley, Alexandra	162

C

Chevalier, Jacques	313
Chilton, J.P.	140
Crowle, Vivien	51

F

Fluhmann, Ing. W.	84
Foster, J.	246

G

Gabe, D.R.	276
Gillbanks, P.	172
Gowri, S.	254
